

**Gino Sigismondi**  
**Product Training Specialist**  
**Shure Incorporated**

Gino Sigismondi, a Chicago native and Shure Associate since 1997, has been active in the music and audio industry for over fifteen years. Currently managing the Technical Training division, Gino brings his years of practical experience in professional audio to the product training seminars he conducts for Shure customers, dealers, distribution centers, and internal staff. Gino spent ten years as a member of Applications Engineering, assisting Shure customers with choosing and using the company's vast array of products, and is the author of the Shure educational publications "Selection and Operation of Personal Monitors," "Audio Systems Guide for Music Educators," and "Selection and Operation of Audio Signal Processors." He was recently awarded status as an "Adjunct Instructor" by the InfoComm Academy.

Gino earned his BS degree in Music Business from Elmhurst College, where he was a member of the Jazz Band, as both guitar player and sound technician. After college, he spent several years working as a live sound engineer for Chicago-area sound companies, night clubs, and several local acts. Gino continues to remain active as a musician and sound engineer, consulting musicians on transitioning to in-ear monitors and expanding his horizons beyond live music to include sound design for modern dance and church sound.
